System Manual

Risk warning

Before you begin trading on Real account please carefully consider your investment goals, risk and experience you have. It should be noted that Forex is a leverage based market. It should be remembered that leverage can work both in your advantage and disadvantage as well. Therefore there is high risk of losing a part or all of your financial input placed on your account and because of that you should remember to trade with the amount of money which you can lose without taking any influential financial damage.

- Restart your MT4

- Open your favourite chart. Press the right mouse button and pick GANN template.

GANN1 (Provides fastest signals with increased risk and also increased profit potential. Use it for scalping, or fast daytrading).

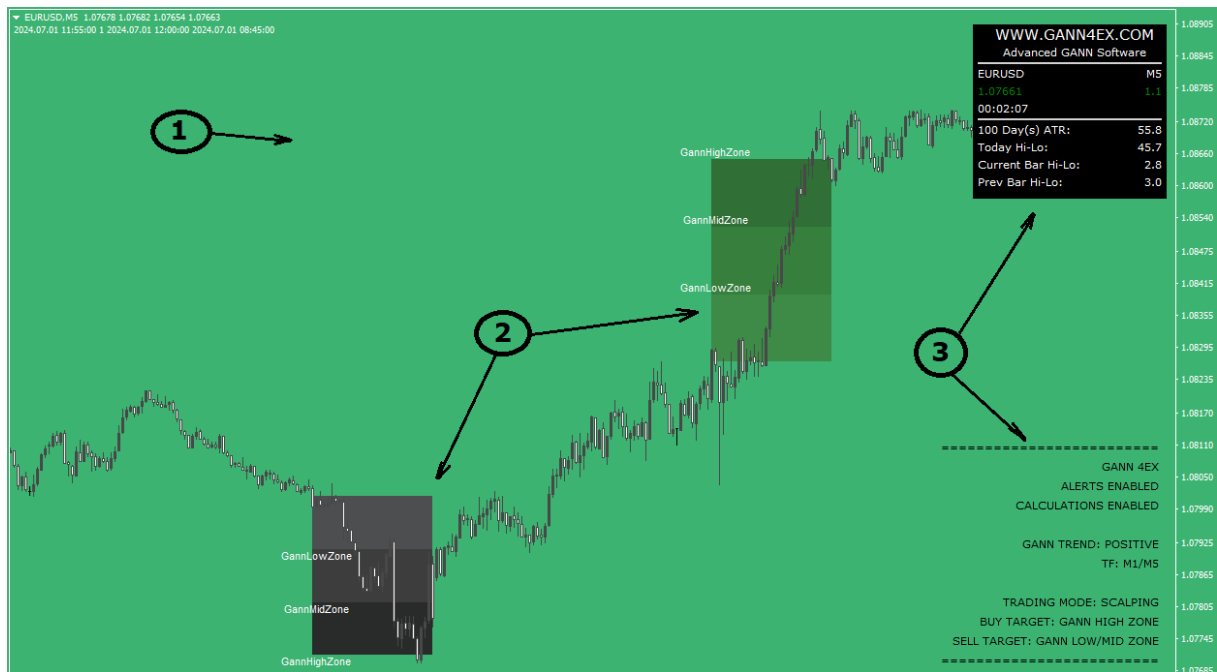

GANN2 (Provides balanced and stable signals. Perfect for most traders. Use it for typical daytrading or swingtrading).

GANN3 (Provides slower but more filtered signals. This is mode is recommended for swing/postion traders, or simply for traders who do not have much time for checking the charts).

System overview

System contains three major sections

1. Background Indicator.
2. Entry/Exit Indicator.
3. Info Dashboards

HOW DOES IT WORK.

System uses dynamic background GANN trend control.
